Researches papers and programs in pandemic time

The Covid 19 pandemic has significantly boosted working papers submissions to the National Bureau of Economic Research. From an average of 1,200, the bureau registered a record of 1,713 papers, 477 more than the previous record of 2018.

2019

In 2019, 1185 working papers
were published to the NATIONAL
BUREAU OF ECONOMIC
REASEARCH(NBER) which
corresponds to the average.
But, apparently, something
happened in 2020?
and boosted the publications.
